

I am a senior react native developer and I have created a number of applications in this technology.

I have been working on this technology since 3 years and I have expertise to develop both IOS and Android Applications. I have total of 4 years experience.

I provide services in these technologies:

- 1. React Native
- 2. React.js
- 3. Redux
- 4. Meteor.js
- 5. Node.js
- 6. MongoDB

Please checkout my applications which are live on app store and play store:

Communiti App:

Communiti is India’s first platform which help Indians, reduce their healthcare & hospital expenses with the help of alternatives like community based financing plans, prime plans & very low interest lending & also helps you manage diseases & your health information with medicine reminders, medical document storage, quit smoking plans, diabetes care plans & many more. We want to empower an Indian with tools to manage & prepare against ever increasing healthcare cost & stay healthy by subscribing to health management courses & plans to manage preventive healthcare.

Toffee Insurance:

This app has been designed with cycle dealers in mind. They wish to ease the process, save dealer's time and help dealer increase earnings. They can help their customers quickly purchase a Cycle Insurance policy with a few clicks. You can track customer data, payments and your rankings, as well as watch your earnings grow. When a claim comes in, the App walks you through the process, making it simple and straightforward so that you can get right back to doing what you do best - serving your customer’s needs

<https://play.google.com/store/apps/details?id=com.toffeecover>

Weatherman Umbrella:

Weatherman is a different type of weather app, featuring intuitive forecasts and intelligent alerts so you’ll never forget to take your umbrella when it rains.

See live weather conditions for your favorite locations and look ahead with hourly and extended seven-day forecasts

Add up to six locations across the globe for a one-stop view

Get accurate weather alerts so you know to take your umbrella before you go

Smart notifications for upcoming precipitation during your commute based on your home and work locations

See the likelihood of precipitation by hour through helpful infographics
